IMPORTANT INFORMATION FOR INVESTORS

Foord Unit Trusts (RF) (Pty) Ltd (Foord) is an approved CISC Management Company (#10), regulated by the Financial Sector Conduct Authority. Portfolios are managed by Foord Asset Management (Pty) Ltd, an authorised Financial Services Provider (FSP: 578). Collective Investment Schemes in Securities (unit trusts) are generally medium- to long-term investments. The value of participatory interests (units) may go down as well as up and past performance is not necessarily a guide to the future. Performance is calculated for the portfolio. Individual investor performance may differ as a result of the actual investment date, the date of reinvestment and withholding taxes. Performance may be affected by changes in the market or economic conditions and legal, regulatory and tax requirements. Foord does not provide any guarantee either with respect to the capital or the performance return of the investment. Unit trusts are traded at ruling prices and can engage in Shariah-compliant borrowing. Foord does not engage in scrip lending. Commission and incentives may be paid and if so, this cost is not borne by the investor. A schedule of fees and charges and maximum commissions is available on request. Distributions may be subject to mandatory withholding taxes. Portfolio information is presented using effective exposures. A fund of funds invests only in other Collective Investment Scheme portfolios, which may levy their own charges, which could result in a higher fee structure. A feeder fund is a portfolio that, apart from assets in liquid form, consists solely of units in a single portfolio of a Collective Investment Scheme which could result in a higher fee structure. Foord is authorised to close the portfolio to new investors in order to manage the portfolio more efficiently in accordance with its mandate.

Unit trust prices are calculated on a net asset value basis, which is the total value of all assets in the portfolio including any income accruals and less any permissible deductions from the portfolio. Forward pricing is used. Prices are determined at 15h00 each business day and are published daily on www.foord.co.za. The cut-off time for instruction is 14h00 each business day.

The portfolio may include underlying foreign investments. Fluctuations or movements in exchange rates may cause the value of underlying foreign investments to go up or down. The underlying foreign investments may be adversely affected by political instability as well as exchange controls, changes in taxation, foreign investment policies, restrictions on repatriation of investments and other restrictions and controls that may be imposed by the relevant authorities in the relevant countries.

A TER is a measure of a portfolio's annual expenses, fees and charges, expressed as a percentage of the average daily value of the portfolio. These expenses include the annual fee, VAT, audit fees, bank charges and costs (excluding trading costs) incurred in any underlying funds. Included in the TER, but separately disclosed, is a performance fee (or credit) resulting from overperformance (or underperformance) against the benchmark. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER cannot be regarded as an indication of future TERs. Performance return information and prices are always stated net of the expenses, fees and charges included in the TER.
